Acquainting Agriculture Newsletter

“But other seed fell on good ground and yielded a crop that sprang up, increased and produced.” – Mark 4:8

School has started and we currently have thirteen students enrolled in our first semester class. We have been busy preparing the soil, getting it just right, in order to plant seeds in “good ground.” God has been blessing each step of the way. We are so grateful for this opportunity to learn of Him and see Him in action.

Preparing the Soil – each student tilled, mineralized the soil, helped lay down peat moss, and formed rows to prepare for planting.

Yearly Budget

Let the children and youth learn to recognize in natural things the working of divine agencies and they will be enabled to grasp by faith unseen benefits. As they come to understand the wonderful work of God in supplying the wants of His great family, and how we are to co-operate with Him, they will have more faith in God, and will realize more of His power in their own daily life.

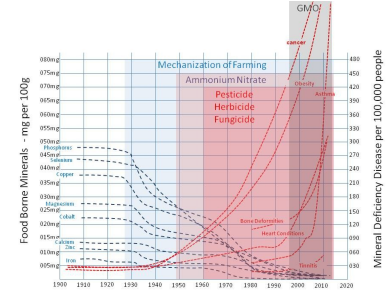

-E. G. White, COL 80.1

List of Needs – Our program has had some very generous donors and we are so ever grateful! However, we still have some big needs on our list to fill. Would you consider helping our program as we continue to teach our students about God through His classroom.

Agriculture Presentation – Come see what our program is all about as we present the purpose and methods behind what we are doing. You will definitely be blessed as you see how God works through His creation to teach and touch our hearts.

Special Thanks

Our ‘Work Bee’ was an absolute success! Thank you to everyone who was able to come out and help. We were able to cut back a tree overshadowing the greenhouse, pull out all the bind weed, place a 2”x6” wooden beam across the entire length of the greenhouse to help with our side wall roll up, allowing for better passive ventilation. We will have another work bee in the future, so, stay tuned!
